Dear Development Manager,

We were extremely dismayed to hear that the plans have been revived for a housing estate to be built behind Birches Lane and Glasshouse Lane, one of the most beautiful areas in Kenilworth.

We voted Conservative at the last election on the promise that this Labour initiative would not be fulfilled. Such building plans would destroy ancient woodlands and spinneys, of which Kenilworth should be proud and should not destroy. Not only will it adversely effect our lives whilst building work progresses, it will also diminish the value of local properties. Do we get compensation? And do the Kenilworth Rugby Club and the Wardens' Cricket Club have to be destroyed? Such vandalism will affect the sporting lives of our young people.

Consequently we are against such draconian decisions to alter and destroy a beautiful part of Kenilworth, and its wild life.
