To whom it may concern,

Whilst browsing the Preferred Options Local plan leaflet and viewing the maps on page 5, 6 and 8, I lament.

I note that the Warwick district must meet the housing need, obviously a directive of central Government to all councils? I suspect the council has no choice, except to juggle with areas to place new developments on. Warwick and Leamington, Sydenham and Whitnash have virtually merged with the new proposals, thus creating a concrete jungle. Harkening back to 1979 or a ten year old moving to the above address, many times jogging down Heathcote Lane, how the land has disappeared with progress creating the obvious issues, traffic, more facilities required etc.

Your foresight that future growth is on the horizon, leaves this area with no choice despite our opinions.

I look forward to hearing from you.

Yours Faithfully
