

Warwick District Council,

6124.

Riverside House,

22nd July 2012

Dear Sir, Madam

I am writing to oppose the District Councils plans to develop on Green belt land at Old Milborton and Blackdown.

I cannot believe the planning department have tried to push this through so quickly - within some deluded idea that this is all good news for Leamington Spa and secondly the reason that if they had not granted this the developers would have been able to do this on their own.

On many occasions I have experienced the mind-field of gaining any form of planning

permission from the Waverley District Council - and find it inconceivable that they can suddenly grant planning for thousands of homes without ever consulting the persons living in the area.

I moved into my home two years ago and presumed that the green belt was secure and the legal system in this county does not allow green belt to be developed.

North Leamington is well used by Joggers, ~~and~~ people walking their dogs, country rambles ect. - You only have to open your gate and you will see cyclists, Joggers, people walking their dogs. Indeed blackdown has to be the pride of Leamington Spa - I can see how AC. Lloyd would love to develop up here getting a hefty premium but also destroying the best part of the district.

I have been to some of the meetings held and understand there were other options available

The way this has been put together so quickly
and the original plans changed - it just ~~it~~ does
not add up to me, or to all the other
people who will be effected.

please re-consider this development it ~~will~~
will ruin Leamington Spa and is so unfair to
the people of Leamington Spa.

Yours Sincerely
Y
