# Warwick Local Plan – Proposed Modifications to the Publication Draft Local Plan

## Response Form

### Question 7: Why the Proposed Modifications are unsound

HTP Ltd acts for Dellacqua Ltd which is the freehold owner of Kingmaker One and Two, two of the key buildings within Warwick Technology Park. My client **OBJECTS** to the proposed housing strategy for the south Warwick / south Leamington area as set out in Proposed Modifications 8 (*Policy DS10 Broad Location of Allocated Housing Sites*), 10 (*Policy DS 11 Allocated Housing Sites*) and 14 (*Policy DS 15 Comprehensive Development of Strategic Sites*) on the grounds that it makes inadequate provision for the associated highway infrastructure necessary to enable the proposed development to take place without unacceptable adverse impacts on the operation of Warwick Technology Park.

As the District Council will be aware, access to Warwick Technology Park is already critically constrained due to a general increase in traffic numbers and a significant intensification of the level of occupancy at the site. The result is that occupiers are experiencing significant delays exiting the Park at peak times, with delays being so significant that it threatens the future viability of the Park as a premium employment site.

The current access constraints to the Technology Park exist before any significant delivery of the 4,345 dwellings which the Proposed Modifications propose within the south Warwick and south Leamington area. It is therefore imperative that the Local Plan strategy ensures that appropriate improvements are made to the strategic highway network to mitigate against the hugely significant increase in vehicle movements which is expected within the vicinity of the Technology Park. Whilst we note that the District Council's Draft Infrastructure Plan (March 2016) identifies the provision of a two-lane approach roundabout on Gallows Hill / Heathcote Lane as a proposed highway improvement, neither the Infrastructure Plan nor Proposed Modifications set out any firm timetable for delivery. This is an unacceptable approach to the provision of a key element of infrastructure, without which the operation of the Technology Park will be fundamentally undermined.

Whilst the proposed housing strategy reflects several extant planning permissions, the Modifications also propose the allocation of land known as Strawberry Fields which forms the western part of Proposed Housing site H46A, and which does not benefit from an extant consent. It is therefore a new proposal which the District Council assumes could provide approximately 180 dwellings. In view of the highway constraints outlined above, and the absence of any commitment to priority delivery of the Gallows Hill / Heathcote Lane roundabout, my client also **OBJECTS** to the proposed allocation of the Strawberry Fields site.

### **Question 8: Required amendments**

The Local Plan must make it explicit that the proposed Gallows Hill / Heathcote Lane roundabout at Warwick Technology Park is to be delivered as an **urgent priority** as a key element of the overall housing strategy, with a clear timetable or programme for delivery. This can be funded from the significant s106 monies which will shortly be available from consented residential schemes within the vicinity for appropriate highway mitigation schemes within the south Warwick and south Leamington area.

We consider that use of s106 funds to ensure that the Technology Park can function effectively as a key employment area is of paramount importance and is of greater urgency than other mitigation measures, such as the dualling of Europa Way.

In addition, if allocation of the Strawberry Fields site is to be retained, then a requirement of development must be that the proposed Gallows Hill roundabout is delivered **prior to first occupation** of any new housing, with funding either directly by a s278 agreement or via s106 monies from this and other consented sites.
