

Kenilworth Town Council has the following points to make in the Consultation on the Leek Wootton and Guy's Cliffe Neighbourhood Plan:

1. In paragraph 6.5.8 the idea is discussed to make Woodcote Lane one-way northwards as it leaves the village. This would need careful study because of the possible effects on the Rouncil Lane/Warwick Road junction in Kenilworth which has been identified in the Kenilworth Neighbourhood Plan as a junction needing improvement. We note that unlike the proposed one-way system in Hill Wootton which is discussed in paragraph 6.5.9 (which does not concern Kenilworth) the Woodcote Lane scheme is not carried forward to Policy LW12. Does this mean it is no longer being considered?
2. We support the improvement of pedestrian and cycle links with Kenilworth in paragraph 6.5.12 and presume that the County Highways will ensure joined up thinking with the improvements being sought in Kenilworth.
3. We are well aware of the cross-border sports development proposed in the new Local Plan and are surprised that we have not found reference to the necessary co-operation, which is in hand.
4. We note the comments on Sewage and Drainage infrastructure in paragraphs 6.5.18-20 as we are aware that some of the proposed development in Kenilworth will potentially drain into Leek Wootton parish.
