To whom this concerns

I am writing re the proposed development around Thickthorn Close.

The council have always held strong on the view that Thickthorn is not a suitable access point due to it being a narrow road. It is clear however that from your proposals it is now a main access point for a new estate.

There was a commitment that the amenity of the residents in Thickthorn would not be impacted and this clear does impact.

I would like this to be formally recorded as part of the consultation process and would access that you confirm this by email.

Yours faithfully

Rebecca Stevenson
